"I have used the Symphony line for over 10 years. When I was just learning to paint, I started using the Symphony line as a self-taught faux finish. Now, 10 years later, as a working professional Fine Artist, I am still in love with the Symphony products. Whether you are a Do-It-Yourself Mom or a professional artist, the Symphony line not only makes it easy to paint your own walls, but also sets you up for success. I truly believe the Symphony products make me a better painter!"
